

# ACTION PRO

The **CARTONI Action Pro** is a lightweight and cost-effective pan and tilt system offering true fluid drag and professional features for sophisticated digital Cameras weighing up to 5Kg (11 lbs).

The **Cartoni** Patented fluid drag modules are employed for both pan and tilt modes, while counterbalance is achieved by a double spring group which can be easily disengaged with cameras weighing less than 2 Kg (4.5 lbs).

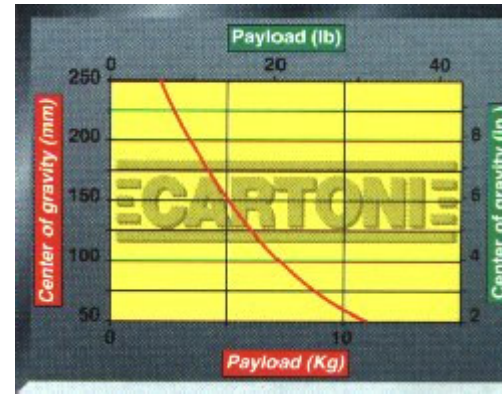

Featuring positive pan and tilt lock spirit level and adjustable pan bar, the **Action Pro** head is supported by a sturdy aluminium 75mm bowl tripod with off-ground spreader, four pivoting rubber feet and shoulder strap.

The following accessories are available as an option: second pan bar, padded carrying bag and lightweight dolly.

Load capacity (150mm c/g) :	5 Kg ( 11 lbs)
Head weight :	1.2 Kg (2.6 lbs)
Pan range :	360°
Tilt range :	- 85°/+90°

Bowl base diameter :	75mm
Temperature range :	- 40° + 60°
Fluid drag :	Countinously adjustable
Counterbalance steps :	1 settings + 0
