

DVD Players/Recorders and Laser Disc Players

Pioneer PRV-LX1

\$200/Day
\$600/Week

The PRV-LX1 is the newest professional DVD-Video recorder from Pioneer, the world leader in DVD technology. It features simple operation with a wide range of features and functions that complement any video production environment. This award winning industrial recorder gives you everything you need today, with a future-proof modular design for adding the features you'll want tomorrow.

Pioneer's PRV-LX1 comes equipped with a 120GB internal hard disk drive and one DVD-R/RW recordable drive. You can add an optional second DVD-R/RW drive if desired. The PRV-LX1 is designed to quickly and easily record video from all professional video sources onto DVD-R or DVD-RW media without the need for a PC or authoring system. This industrial recorder is designed to meet the needs of a wide variety of video and post-production environments and easily tackles one-step conversion of video assets to DVD, easy authoring of video projects and archiving video to the highly compatible DVD-Video format.

Pioneer DVD-7400

\$75/Day
\$225/Week

Pioneer's DVD-V7400 brings together the highest level of reliability and versatile functions demanded by industrial DVD-Video users in a compact, lightweight and easy-to-operate player. To ensure easy operation, all major functions can be accessed via a wireless remote. In addition, most user interface functions, such as on screen menu buttons, can be accessed via a standard PS/2 mouse which connects directly to the front panel of the player. To round off the package, Pioneer has added compatibility with DVD Barcode[®] and LaserBarcode[®] control systems. Pioneer has also built in playback compatibility for both NTSC and PAL video standards.

The following disc formats and disc media formats are supported:

Multiple Disc Formats

- Video CD
- CD-DA
- DVD-Video
- DVD Hybrid (DVD-Video segments)

Multiple Disc Media

- CD-R
- CD-RW
- DVD-R

The player also adds component video and DTS audio stream outputs to the host of other hardware connections.

Panasonic DMR-T2020

\$100/day
\$300/week

The Panasonic DMR-T2020 DVD Video records onto DVD-RAM or DVD-R discs (DVD-R discs are compatible with most consumer grade DVD players). The DMR-T2020 also supports playback of CD, Video CD and CD-R/RW formats. Selectable recording modes and storage times are 1 hour (XP), 2 hours (SP), 4 hours (LP), 6 hours (EP) using single-sided DVD-RAM and DVD-R discs.

Panasonic AG-LD30
\$40/day
\$120/week

Studio player with composite output will play Laser Vision Discs, Compact Discs, and Compact Discs with Video.
