

LCD Projectors

Sony VPL-FX52 LCD Network Projector

\$600/day

\$1800/week

The VPL-FX52 delivers 6000 ANSI lumen, enough light output to illuminate large screens even with harsh ambient light conditions. With a 1000:1 contrast ratio, the FX-52 produces crisp images with accurate reproduction of even the most subtle image components. The FX-52 projector comes with a power zoom, focus and picture shift lens. There are three optional lenses available allowing to meet a wide range of needs – from long throw projection to short rear projection. This projector accepts a wide range of computer and video inputs.

Equipment Specifications

Sony VPL-FX51

\$500/Day

\$1500/Week

In auditoriums or business conferences, for seminars or classrooms, the VPL-FX51 lets you captivate audiences with breathtaking image quality. Its high brightness output of 5200 ANSI lumens with a high contrast ratio, enables you to give high-impact multimedia presentations. Seen from any angle, this beautifully designed projector brings an elegant and stylish addition to any display environment. Its outstanding functionality – including Sony-originated software and a networking capability – means you can show your presentations and image files from anywhere with ease, and impressive results.

Sony VPL-FX50

\$350/Day

\$1050/Week

Whether for the boardroom, business conferences, seminars or school education, the VPL-FX50 is so beautiful, it makes a statement even before it's turned on. But once power is applied, it lets you captivate audiences with a breathtaking new world of high image quality and multimedia presentations. Seen from any angle, the innovative front port and front connector panel design makes the VPL-FX50 a cool and stylish addition to any setting. Functional Sony software and networking capability means you can view your presentations and image files with great ease, from anywhere in the world. But the pinnacle of achievement comes when power is applied and the audience can appreciate top of the line sharpness and resolution. Combined, the features of the VPL-FX50 promise presentations and video images with an extra edge of brilliance.
